Runs and supervises the full pipeline from trend and idea to script, edit, posting and analysis; leads writers and editors, and uses AI (image, video and voice generation, automated editing) to produce at volume. Delivered **700+** reels, including multiple viral reels with millions of views.

EXPERIENCE

Freelance Jun 2024 – Present

Content Lead, Creators & Brands Remote

- Mukesh Mohan (745K followers): ongoing scripting, brainstorming and content consulting for the political creator.
- Highlight: conceived, scripted and edited his two-part political explainer series, reaching **9.5M** plays (**7.0M** + **2.5M**).
- Co-founded and ran two Punjabi pages end to end, owning ideas, scripts, edits and page management: Punjab Mirror (socio-political; **72** reels, **2.2M** plays) and Saanjhi Dhee Foundation (women's rights).
- Jashan Bajwaa (Punjabi creator, Toronto): scripts and edits; top reel **367K** plays.
- Mitali Chauhan (YouTube): grew the channel from zero to **110K** subscribers, leading ideas, scripts, editing and posting.
- Ran sales ad campaigns for Rudraveda (**~20** reels) and Anand Home Store, a local retail group.
- Manage a network of freelance editors plus AI workflows to scale output across clients.

Elev8 Media Aug 2025 – Oct 2026

Post-Production Lead Remote, Canada

- Delivered **600+** commercial videos for **50+** Canadian Punjabi brands in real estate, IELTS coaching, restaurants, construction and finance.
- Led post-production in a team of **~10**, with each editor delivering **2–3** reels a day (**~70** a month); reviewed every cut and set standards for storytelling, sound and brand guidelines.
- Assigned and tracked editors' work in a ClickUp pipeline (brief → script → edit → review → schedule → analysis).
- Ran timestamped reviews on Frame.io; every cut passed fact-check, proofreading and caption checks before approval.
- Owned delivery for premium client accounts and fed concepts into pre-production.
- Introduced AI tools that sped up production, cut errors at quality check and standardised the workflow, making it easier to scale both volume and quality and keep up with new trends.
